I grabbed an adaptor. Not the brand Oleg recommended. Can you grab in the morning before you work on unit?

Regards,

Eric

Eric,

Based on the need to collect rinsate blank samples and the inclusion of soil sampling at the Holy Trinity Sites, We have updated the Analytical Request Forms for all the three Radiation Sites (see attached): Canadian Radium & Uranium, Niagara Falls Blvd and Holy Trinity Sites.

Adly Michael may indicate that CLP can handle some of these analysis, but my honest opinion is that since we all are under a lot of pressure to make these projects happen, it behooves us to use a private laboratory to forestall any additional complications.

Please sign the attached Analytical Request Forms and email back to Smita and copy me.

Thank you.

Ben Nwosu
